Patrick J. Marana
Mayor

July 17, 2020

Pre-COVID19, Town Day, 2020 had been tentatively scheduled to take place on September 12. Unfortunately, the event has to be cancelled due to several reasons.

It's not clear how many people would really want to gather if the event were to be held. A substantial percentage of our residents would not want to be there under any circumstances. At risk residents should not be there. Social distancing, masks and other COVID logistical procedures would rule the day.

Since its return in 2011, Town Day has been funded at no net cost to residential taxpayers. Contributions from our very generous businesses have covered costs. Fund raising this year is problematic. It's impossible to even consider soliciting funds from companies that have been harmed financially. One of our major contributors is an extremely charitable entity that has refocused their giving to area food banks and has suspended most other contributions. We applaud their commitment to providing food security for so many people.

Best Regards,

Pat Marana
